DISPOSAL FEES

For Shingles, Mixed Debris or Refuse and Contaminated Soils Only

While every effort is to be made to sort and segregate garbage according to designated areas, the Municipality recognizes that in some instances, this may be impossible to achieve, creating **Exceptional Cases**.

In **Exceptional Cases**, (which could be contaminated soils or mixed building debris or refuse i.e. from building construction or destruction within Municipality), this contaminated soil or mixed debris may be accepted, at the discretion of the Waste Site superintendent or his/her designate, and upon the superintendent's direction, refuse must be deposited in the site as directed by said superintendent or designate and is subject to the fees identified below in addition to any handling fees that may be incurred to deal with said refuse.

Commercial businesses providing disposal services for mixed debris and/or contaminated soil must contact the Waste Site superintendent or designate to determine quantities and to make arrangements for disposal.

Mixed debris or contaminated refuse will only be disposed of on days that the site is open, unless there is deemed to be an emergency situation as determined by the Ministry of Environment or the Waste Site superintendent.

If at all possible, all Disposal Fees are to be paid at the Municipal Office (either in person or by mail) prior to dumping. If prepaid, the receipt must be produced to Attendant prior to disposal of refuse to verify that the waste being deposited matches the fees paid.

If it is not possible to pre-pay, the taxpayer will receive a billing slip from the Waste Site Attendant identifying type of refuse and fee to be paid. Taxpayer may pay Attendant directly, pay by electronic funds transfer, or may pay in person at, or by mail to the Municipal Office.
