APPLICATION FOR CONSENT TO CREATE NEW LOTS

APPLICATION GUIDE Q & A

These tips are intended as a guide to help you decide if your proposed lot might qualify for a severance through the consent application process. There are other factors which may be considered in assessing your application for consent.

What is an official plan?

Official plans are local land use planning documents adopted by a local municipality and planning board and approved by the province. They reflect provincial and local planning issues and among other things, establish policies for lot creation.

Your proposed lot(s) must conform to the requirements of the official plan and be consistent with the Provincial Policy Statement (under Section 3 of the **Planning Act**).

What is a Zoning By-law?

Local zoning by-laws exist in your area. They set out specific requirements for new development (e.g. minimum lot size, frontage, acceptable access, etc.).

Your proposed new lot must conform to any zoning controls. *Your Municipal Staff and its Representatives* can help you interpret your local official plan and zoning by-law.

Is consent the way to go?

Generally, the creation of new lots by consent may be considered where:

- only one or two are proposed;
- no more than two lots have been severed from the parcel since *December 16, 2011* when the current Official Plan was approved.
- the new and remaining lot will have direct access to an existing publicly-owned and maintained road
- the new lot represents infilling between existing lots on a private road;

Where can new lots be created?

Lot creation can be considered in all parts of the Planning Area as long as the proposed new lots would comply with the Official Plan and Zoning bylaw.

All new lots must be suitable for their intended use. For example, new lots must be large enough to accommodate the proposed building and all servicing requirements.

Where can't new lots be created?

Generally, lots cannot be created on provincially significant wetlands, prime agricultural lands, lands containing mineral aggregate resources, hazardous lands such as steep slopes and areas susceptible to flooding or where fish or wildlife habitats will be disturbed or in Plans of Subdivision.

New lots cannot be created where they are not compatible with surrounding land uses. For example, a new lot for a house probably would not be permitted next door to a factory or a waste disposal site.

What kind of access do new lots need?

Any new lot must provide safe, long term access for all vehicles, including service and emergency vehicles.

Generally, this means:

- lots should be located on publicly-owned roads which are maintained year round;
- a limited number of seasonal residential lots on private roads may be considered, provided they won't be converted to permanent residential use and they have registered right-of-way with direct access to a public road;
- water access may be acceptable for cottage lots, where future demand for road access is not anticipated; lots should be located within a reasonable distance to publicly-owned and maintained parking, docking and boat launching facilities.

What kind of services do new lots need?

In general:

- a new lot must be acceptable for the installation of a septic tank/tile bed system and wells;
- lake water for cottage lots may be permitted.

Who is authorized to submit an application on property with multiple owners?

Any property owner may act as an applicant provided they have the authority to act on behalf of all owners of the property.

Pre-Application Consultation

Applicants are encouraged to make an appointment with the Municipality's Planner for a pre-application consultation prior to filing an application for Consent to sever. The applicant may be required to obtain and provide certain reports that must be filed together with the application in order for the application to be deemed complete, i.e. the Ministry of Transportation, Algoma Public Health, Technical Reports, etc. Pre-consultation fees are a minimum cost of \$240.

What happens to my application after I submit it to the Municipality of Huron Shores?

Once the Application has been deemed to be complete, payment and final signatures will be required. Costs are listed on our website or can be obtained by calling the Municipal Office 705-843-2033.

The required Circulation and Public Notice will then be given as required by Ontario Regulation 197/96.

Generally, the notice, circulation, site visit, if necessary, and a decision on a consent request will be done in 90 days from the receipt of a complete application.

In most cases, if the municipality decides to approve the application, there will be conditions stipulated and these conditions must be fulfilled prior to granting final consent. The applicant has one year to fulfill conditions imposed, otherwise the application is deemed to be refused. The applicant, or any person or public body can appeal the decision and any or all of the conditions to the Land Planning Appeal Tribunal within 20 days after the giving of notice of decision.

If the municipality decides to not approve the application, the municipality will send a notice, giving the reasons for the refusal. The applicant, or any person or public body has up to 20 days after the giving of notice, to appeal the decision to the Land Planning Appeal Tribunal. If at the end of 20 days there is no appeal, the refusal decision becomes final. The applicant can appeal the application to the Land Planning Appeal Tribunal if a decision has not been reached on the consent

request within 90 days of the municipality's receipt of a "complete" application that contains all of the prescribed or required information. Before filing a notice of appeal, the applicant should determine the status of the file since it might be possible for the municipality to make a decision on the application within a reasonable time. If all the required information is submitted at the time of application, delays in processing the file can be avoided.

The Municipality of Huron Shores

CONSENT APPLICATION UNDER SECTION 53 OF THE PLANNING ACT

Note to Applicants: This application form is to be used if the Municipality of Huron Shores is the consent granting authority. In this form the term "subject" land means the land to be severed and the land to be retained.

Completeness of the Application

All application questions must be answered.
Incomplete applications will be returned.

Submission of the Application

- A fee of \$700.00 for the first parcel/consent or lot addition proposed + \$350.00 for each additional parcel/consent or lot addition proposed must accompany the application. The fee is non-refundable whether application is approved or denied.
- The original and 1 copy of the completed application form and 1 copy of the sketch are required by the Municipality of Huron Shores.

For Help

To help you understand the consent process and information needed to make a planning decision on the application, refer to the "Application Guide Q & A". For more information on the **Planning Act**, the consent process or provincial policies, please see the Ministry of Municipal Affairs and Housing "Guide to Planning Applications" and the applicable "Provincial Policy Statement".
